WHY IS RECREATION SO IMPORTANT?

- **EXERCISE** - Studies have shown that regular exercise can help prevent diseases, control your weight, increase strength, improve stamina, help you sleep better, and just make you feel better in general
- **RELAXATION-** Calm your mind, and you'll lower your blood pressure
- **GROUP PARTICIPATION -** Participating in any kind of group activity—a class, theatrical production, community league sport, or pick-up game, has all kinds of benefits. Group activities help you build your social skills and social networks.
